Program Optimo predstavlja optimalan izbor za moderne operative prostore.

Program Optimo pruža mogućnost izbora između pravokutnih oblika ploča stolova, za one koji vole jednostavnost, te zaobljenih oblika za kupce kojima je interesantnija ergonomska linija. Zahvaljujući ergonomskim linijama te varijabilnim dimenzijama elemenata, program Optimo pogodan je za opremanje svakog radnog prostora u kojem se želi postići funkcionalnost i praktičnost.

Izrađen u toplim bojama drva program Optimo pridonosi udobnosti i toplini radnog prostora kako bi se zaposlenici osjećali kao kod kuće, a istovremeno imali sve uvjete za neometano obavljanje svojih zadaća. Kontrast ugodnim i toplim bojama radnih ploha daju elementi programa u antracit boji, što radnom prostoru daje dinamičnost. Program Optimo nadopunjuje se kompatibilnim programom ormara Novus.

*Optimo programme represents an optimal choice for the modern operative spaces.*

*The Optimo programme offers the possibility of choice between the rectangular board forms for those who like simplicity and the rounded board forms for those customers who are more interested in an economy line. Owing to the ergonomic lines and changeable element dimensions, the Optimo programme is appropriate for any type of space where special functionality is needed.*

*Made in warm colours of wood the Optimo programme contributes to the comfort and warmth of the working space so that the people working there might feel pleasantly at home having, at the same time, all the necessary conditions for an undisturbed execution of their working tasks. The elements in the anthracite colour contrast the warm and pleasant colours of the working boards, giving the working space a certain dynamics. The Optimo programme may be supplemented with the compatible Novus wardrobe.*
